

04.11.2024  
For all stakeholders

## Letter of recommendation

Rin joined our "[Vegan Russian](#)" volunteer team in May 2024 and is now successfully serving as the project manager of the Products team. Her tasks include coordinating the team, researching on products, helping her colleagues to solve issues, compiling weekly reports and regular delivery of info about new vegan-friendly products for our info catalogue.

From July to October 2024, Rin was also the product manager of "[Vegan Halloween](#)". Ekaterina immersed herself in a new project with ease, communicating with the past manager and product owner. She proved to be a creative organizer, developing unique interactivity and bringing fresh ideas. Rin coordinated the work of the team, optimized the work of the project, and was also engaged in content creation for the SMM department.

Rin does an excellent job with her attention to detail and creativity. She is responsible, highly communicative and offers informative answers.

I would describe Rin as a responsible and organized professional who always provides detailed information and adapts to new tasks. We are grateful to her for her valuable contribution to our project and are sure that her professionalism and skills will be in demand in any business!

CEO and Founder of ANO 'It's Vegan'
